Personal Hospital Intensive Care Insurance  
Policy A-1820C-PA

If you or someone in your family requires confinement in an intensive care unit (ICU), even the best medical program may not cover 100% of the expenses associated with that stay.

 Thousands of Americans enter hospital intensive care units daily because of serious accidents or life-threatening illnesses. The costs of intensive care confinement can soar well above the benefit levels of standard health insurance policies.

Aflac’s Personal Hospital Intensive Care Insurance policy is designed to provide funds to help cover the extra expenses associated with a stay in intensive care. It pays you directly, unless it is assigned, regardless of any other insurance you may have.

Daily Hospital Intensive Care Unit Benefit
Benefits will be paid if you or any covered person incurs a charge for confinement in a hospital intensive care unit (ICU). This benefit is limited to 15 days per period of confinement. No lifetime maximum.

$600 per day (Days 1–7)
$1,000 per day (Days 8–15)

Daily Subacute Intensive Care Unit Benefit
Benefits will be paid for up to a total of 15 days when a covered person incurs a charge for confinement in a subacute intensive care unit (step-down unit).

1. Confinement in a subacute intensive care unit (step-down unit)
2. Confinement in a hospital intensive care unit (ICU) after exhaustion of benefits payable under the Daily Hospital Intensive Care Unit Benefit above

$250 per day

Benefits payable for the Daily Subacute Intensive Care Unit/Hospital Intensive Care Unit Benefit (combination of 1 and 2) are limited to a total of 15 days per covered period of confinement. No lifetime maximum.

Human Organ Transplant Benefit
A benefit will be paid as a result of a human organ transplant procedure when a covered person is confined in a hospital and receives one or more of the following: kidney, liver, heart, heart-lung, lung, or pancreas transplant.

$25,000 per occurrence

Transplant procedures involving more than one organ will be considered to be one organ transplant procedure. This benefit is not payable for transplants involving mechanical or animal organs and is limited to one procedure per 180-day period. No lifetime maximum.

Ambulance Benefit
Benefits will be paid for the actual charges incurred for ground ambulance transportation of a covered person to and from a hospital where the covered person is confined in a hospital intensive care unit or subacute intensive care unit.

Up to $250

Benefits will be paid for the actual charges incurred for air ambulance transportation of a covered person to and from a hospital where the covered person is confined in a hospital intensive care unit or subacute intensive care unit.

Up to $2,000

This benefit is limited to two trips per confinement. The ambulance service must be performed by a licensed professional or licensed volunteer ambulance company. No lifetime maximum.

Continuation of Coverage Benefit
If you are paying your premiums through payroll deduction and you leave your employer for any reason after your policy has been in force for six months and Aflac has received premiums for six consecutive months, Aflac will waive all monthly premiums due for the policy and riders, if any, up to the date your premium payments are re-established. You or your employer must notify us in writing within 30 days of the date your premium payments cease due to your leaving employment.

For you to take advantage of this benefit, you must re-establish your premium payments within two months from the date you left the employer who was remitting your premiums. You can re-establish your premium payments through your new employer’s payroll deduction process or direct payment to Aflac.

This benefit will again become available once you have re-established your premium payments through an employer’s payroll deduction process for a period of six months and Aflac has received premiums for six consecutive months. Payroll deduction means your premium is remitted to Aflac for you by your employer through a payroll deduction process.
